

# Introducing the **NEW Fresh Breath® Treatment Program** by TropiClean®

Oral care is an important component of your pet's overall health. In fact, 80% of dogs begin to show signs of oral disease by age 3.

Bad breath can be a sign of poor dental health. Starting your pet on a daily oral care program will help defend against future build-up of plaque and tartar.

The Fresh Breath 2-Step Oral Care Treatment program helps remove plaque and tartar and freshens breath.

Suggested Service Price \$8-\$12

## STEP 1

helps  
**remove  
plaque  
& tartar**

Fresh Breath Clean Teeth Oral Care Gel uses a safe & effective blend of ingredients to help remove plaque & tartar.

## STEP 2

**quickly  
freshens  
your dog's  
breath**

Fresh Breath Oral Care Foam is formulated with a unique blend of ingredients that help fight bacteria that cause bad breath.

**Help your customer continue their pet's oral care routine with easy daily maintenance!**

Daily use of Fresh Breath Water Additive helps defend against plaque & tartar build-up.

16oz Fresh Breath Oral Care Water Additive MSRP: \$12.99 - \$14.99

# SMELLY BREATH?

Bad breath can be a sign of poor dental health, which can compromise your pet's overall health and lead to periodontal disease.

Did you know that bacteria from periodontal disease can filter into the bloodstream putting your pet at risk of developing health problems that extend beyond the mouth?\*
