

Stand out in the Crowd

With Independent 3rd Party Certification

Did You Know?

The Professional Animal Care Certification Council (PACCC) exists to bring independent testing and certification to the entire pet care services industry. Professionals that pass stringent testing reflecting a professional's broad base knowledge of animal care will receive a 3-year renewable certification.

What's In It For You?

Independent certification is an important step for a rapidly growing industry with a reputation that is frequently damaged by news reports of serious pet accidents and deaths both in facility-based businesses and in-home businesses.

Set yourself apart and prove your knowledge with PACCC Certification.

Why Certify?

Why Should You/Your Team Get Certified?

- Set yourself apart as a pet care professional that values continuing education and quality care
- Elevate the value of your services
- Build and retain teams of top professionals who share the same values
- Keep team members current on education and best practices

Why Look for a Certified Professional?

- Independent, 3rd party certification guarantees continuing education and training according to established industry best practices
- Must abide by a code of ethics to put the welfare of the pets first
- Enjoy the peace of mind that your pets are in the best professional care

Why Work for a Certified Professional?

- Be part of a team that puts the well-being of the animals before all other business considerations
- Engage in ongoing education, in an environment that operates by established best practices
- Work for an individual who invests in their people and the pets in their care
